【Names and Functions of Parts】

《Front》   《Back》

Name	Role
① Strap hole	Use this when using the product as a key holder.
② Battery replacement screw	The battery cover can be removed by loosening this screw.
③ Manufacturing number	Unique number of Mimamori Tag.
④ Battery cover	Remove this when replacing the battery.

【Product Specifications】

Maximum external dimensions	29.0 x 56.5 x 11.6 (mm)
Weight (including battery)	Approx. 14 g
Battery life	Approx. 1 year
Operating temperature	0 to 60 ˚C
Drip-proof performance	Equivalent to IPX4 (water resistant)
Battery used*	CR2450 coin lithium ion battery (Panasonic)

* The life of the battery is approximately 1 year.
  Replace it at an interval of approximately 1 year.
          Country of manufacture : Japan
          Vendor : Sohgo Security Services Co.,Ltd.
          Manufacturer : Access Co., Ltd.

Included Items

The package contains the following items. Check that they are all included.

This document (x1)		Document containing "Mimamori Tag Instructions," "Mimamori Tag Beginners' Guide."
Mimamori Tag (x1)		Mimamori Tag you purchased. Complete the initial registration while referring to "Mimamori Tag Beginners' Guide."
Battery (x1)		Battery for Mimamori Tag. The life of the battery is approximately 1 year. This battery is commercially available at stores and retailers so replace it at an interval of approximately 1 year.

【Safety Precautions】

Before use, read these "Safety Precautions" thoroughly to ensure correct use. Be sure to observe the precautions stated here to prevent harm and damage to the property and physical wellbeing of the user.

<Description of Displayed Symbols>

⚠ WARNING	This indicates a matter that may lead to death, serious injury or physical damage if incorrectly handled.	
⚠ CAUTION	This indicates a matter that may lead to injury or physical damage if incorrectly handled.	
REQUEST	This indicates a matter that will lead to an inability to exhibit the expected performance or a function becoming unable to be used if incorrectly handled.	

🚫 Prohibited   This indicates a prohibited action.

❗ This indicates a compulsory action.

⚠ WARNING

🚫 Prohibited	Never dismantle or modify Mimamori Tag.
🚫 Prohibited	Do not use a battery for which the usage period has expired or an old battery. There is a risk of rupture.
❗	When disposing of a battery, dispose of it in the prescribed way. When disposing or storing a battery, wrap tape or the like around the battery to isolate it.
❗	If battery fluid gets in an eye or on your body, rinse it off with water and consult a doctor immediately.
🚫 Prohibited	Insert a battery with the correct polarity. Making a mistake may result in fluid leaking or rupture.
🚫 Prohibited	Do not put a battery in a fire. Also, do not short, dismantle, deform, or charge a battery. Doing so may cause fluid leakage, heat generation, fire, or rupture.
🚫 Prohibited	Place a removed battery out of the reach of infants and small children. If it is accidentally swallowed, immediately contact a doctor and ask what to do.
🚫 Prohibited	When the battery is depleted or Mimamori Tag will not be used for a while, remove the battery. Leaving it as is may result in fluid leaking or rupture.
🚫 Prohibited	Do not place Mimamori Tag in a place within the reach of infants. Ensure that it is not licked, placed in a mouth, or swallowed. If it is accidentally swallowed, immediately contact a doctor and ask what to do.
🚫 Prohibited	Do not use Mimamori Tag in an aircraft.

⚠ CAUTION

🚫 Prohibited	Do not place Mimamori Tag in a place exposed to direct sunlight or high humidity. Doing so may cause the temperature inside Mimamori Tag to rise, resulting in a fire or failure.
🚫 Prohibited	Do not stand or place a heavy object on Mimamori Tag or place it on an unsafe tilted surface. Doing so may cause it to fall or drop, resulting in damage or injury. Exercise particular caution in homes with small children.

REQUEST

Use Mimamori Tag in a place where the ambient temperature is 0 ˚C to 60 ˚C.

If drops of water get on Mimamori Tag, wipe them off immediately with a dry cloth or the like. Do not use Mimamori Tag while it is wet.

Do not use benzine, thinner, alcohol, chlorine, or other chemical or an abrasive. Doing so may cause the discoloration or deformation of Mimamori Tag.

Do not drop or subject Mimamori Tag to a strong impact. Doing so may cause a failure.

Do not place Mimamori Tag close to the air outlet of an air conditioner. Doing so may cause a failure due to condensation resulting from sudden temperature changes, internal corrosion, etc.

When replacing the battery, use the following battery. Recommended battery: Panasonic CR2450

When replacing the battery, insert the battery according to the procedure in this document. If the battery is inserted in a way that differs from the procedure in this document, such as placing it in the cover side and then attaching the cover, Mimamori Tag may not operate normally.

Do not place Mimamori Tag in a location where a magnetic field exists or electromagnetic waves are generated such as near an electrical appliance, audiovisual equipment, or office automation equipment (microwave oven, speaker, TV, radio, fax machine, fluorescent lamp, word processor, inverter air conditioner, induction cooker, etc.).

Do not insert anything with a diameter of 3 mm or more through the strap hole. There is a risk of damage.

How to Clean and Disinfect

When the product is very dirty, wipe it with a cloth that has been immersed
in neutral detergent diluted with water or in lukewarm water (50 ˚C or less) and then thoroughly wrung out.
When disinfecting the product, use Saposute (Saraya Co.,Ltd.).
Do not clean, disinfect, or wash with water in any way other than the above.
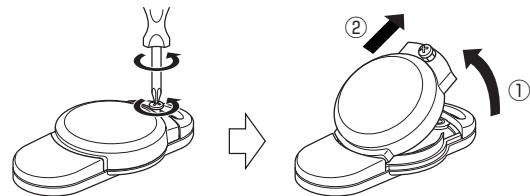

Mimamori Tag Beginners' Guide

Read "Mimamori Tag Beginner's Guide" (this guide) and then use this product correctly. After reading, keep this document handy for future reference.
This guide describes only the main operations and settings for using Mimamori Tag.
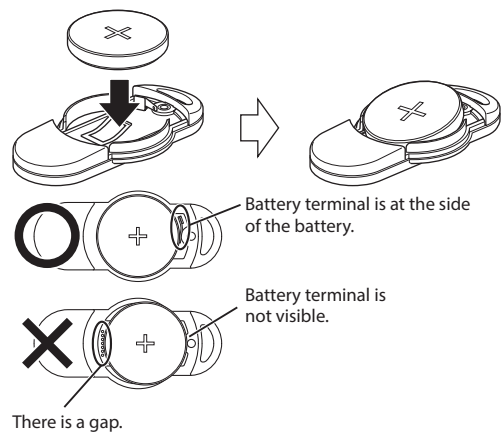

> For the detailed operating procedures, refer to [Mimamori Tag App Instructions] on the Help screen of the Mimamori Tag app.
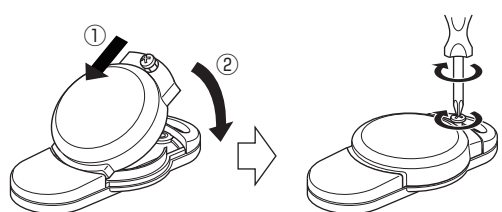

Step 1 — Insert the battery into Mimamori Tag.

1 Loosen the battery replacement screw with a Phillips screwdriver and then remove the battery cover.

2 With the plus side of the supplied battery facing upward, insert the battery while aligning it with the battery terminal. (When replacing the battery, purchase a CR2450 coin lithium ion battery (Panasonic) at a nearby retailer.) After replacement, perform a signal check with the tag detection test of step 5.

Battery terminal is at the side of the battery.

Battery terminal is not visible.

There is a gap.

3 Close the battery cover and then tighten the battery replacement screw until it no longer turns.

Step 2 — Download the Mimamori Tag app (free).
